IntelliCampus Academic Report

Official Student Academic & Performance Dossier • Generated 08 November 2026, 03:58 PM

Student Name:	Aarav Sharma	**UID / Roll No:**	21BCS7492
Program:	B.E. Computer Science & Engineering	**Semester / Sec:**	Sem 5 (CSE-04)
Current CGPA:	**8.57** / 10.00	**Predicted CGPA:**	**8.57** (AI Forecast)

1. Subject-Wise Attendance Summary

Code	Subject Name	Delivered	Attended	Duty	Total %	Status	Buffer/Req
21CS501	Design & Analysis of Algorithm	42	36	2	**90.5%**	SAFE	+8 skips
21CS502	Database Management Systems	38	32	1	**86.8%**	SAFE	+6 skips
21CS503	Operating Systems & System Pro	40	31	0	**77.5%**	SAFE	+1 skips
21CS504	Machine Learning & AI Foundati	35	23	1	**68.6%**	SHORTAGE	Req 9
21CS505	Computer Networks & Security	36	29	2	**86.1%**	SAFE	+5 skips
21CSP51	DBMS Laboratory & Mini Project	14	13	0	**92.9%**	SAFE	+3 skips
21CSP52	Algorithms & Coding Lab	14	12	1	**92.9%**	SAFE	+3 skips

2. Internal Assessment Highlights

Code	Subject	Component	Max	Scored	% Scored	Grade
21CS501	Design & Analysis of Algo	Assignment	20	19.0	95.0%	O
21CS501	Design & Analysis of Algo	Internal MST1	30	27.5	91.7%	A+
21CS501	Design & Analysis of Algo	Internal MST2	30	28.0	93.3%	A+
21CS502	Database Management Syste	Assignment	20	18.0	90.0%	A+
21CS502	Database Management Syste	Internal MST1	30	25.0	83.3%	A
21CS502	Database Management Syste	Internal MST2	30	26.5	88.3%	A+
21CS503	Operating Systems & Syste	Assignment	20	17.0	85.0%	A
21CS503	Operating Systems & Syste	Internal MST1	30	23.0	76.7%	B+
21CS503	Operating Systems & Syste	Internal MST2	30	24.0	80.0%	A
21CS504	Machine Learning & AI Fou	Assignment	20	14.0	70.0%	B

3. AI Analytics & Intelligent Recommendations

- ■ Mandatory Action: Attend the next 9 consecutive lectures of 'Machine Learning & AI Foundations' to restore attendance above 75% (currently 68.57%).
- ■ Focus Subject: 'Machine Learning & AI Foundations' has a composite risk score of 17.1/100. Schedule 3 dedicated review sessions per week and practice past exam problems.
- ■ On Track: Your expected CGPA is 8.57, exceeding the target of 8.5. Maintain your current internal momentum in final exams.
- ■ Safe Buffer: You have 8 safe skips in 'Design & Analysis of Algorithms' (90.48%). You can safely use duty leaves or study leaves if necessary.
